

14 Reasons Why Our Sofas Last longer

1
Made in America

Standard Features

- ~ Hardwood Kiln dried frames.
- ~ Frames are double doweled and glued for strength.
- ~ Corners are blocked, glued and fastened.
- ~ Legs are built into the frame where styling allows.
- ~ Eight way hand tied spring base construction.
- ~ Double cone, high carbon, tempered steel springs.
- ~ Spring front edge for extended cushion life where styling allows.
- ~ Marshall Coil spring backs where styling allows.
- ~ High resiliency foam seat cushions.
- ~ Cushions wrapped in a bag filled with fiber for maximum comfort and crown.

- ~ Back cushions are fiber filled and channeled to prevent sagging.
- ~ Exposed wood legs made from select hardwoods.
- ~ Skirts are fully lined and tailored.
- ~ Fabrics are matched top to bottom and from side to side on skirts.
- ~ Outside backs (except camelbacks) are matched.
- ~ Floral fabrics are flow matched from the cushion to the skirt.
- ~ Front skirt welts are pattern matched.
- ~ Fabrics are not restricted to any particular styles.
- ~ All Leather and Leather fabric styles are fully padded on the outsides.
